

Phase II and Phase III Project Cover Sheet

All information contained within the individual site database and inventory sheets is solely the work of the researchers and authors noted below. The data provided has been culled from the original site reports noted below and in many cases has been lifted directly from them with little or no editing. The database and inventory sheets are meant to serve as a synopsis of the report findings and a finding aid and are not intended to replace or republish the research of the authors noted below.

REPORT INFORMATION:

1974 Young, J.M.
Notes on the Archeology and History of George Washington House (or Indian Queen Tavern), Bladensburg, Prince George's County, Maryland.
Submitted to the Maryland Geological Survey
Library ID No: 00006718 Catalog/Shelving ID: PR 155

Research Firm/Institution:

Jack Young - Montgomery College
51 Mannakee Street
Rockville, MD 20850

Sites examined:

18PR96

Project Details:

Phase I	Project Justification:	Project Objectives:
Phase II	This work is simply a collection of field notes and background research associated with archeological excavtions conducted at the George Washington House in 1972. At that time, the Prince George's Chapter of the Jaycees purchased the building and began undertaking efforts to restore it (after years of falling into disrepair). It was around this time that the fieldschool was conducted at the site by Montgomery College. Presumably, the Montgomery College fieldschool was undertaken at this time because of the planned improvements by the Jaycees to turn the building into a Museum of Prince George's County History.	-Conduct Data recovery excavations at the Indian Queen Tavern.
Phase III <input checked="" type="checkbox"/>		-Attempt to recover data that will firmly date the construction of the structure. -Determine the depth of the foundation wall. -Determine if the fireplace foundation has any connection with the main foundation and whether or not it was built at the same time as the main house.

Research Potential:

See below for remaining research questions at 18PR96.
